Circular No. Acad-18/2021

Subject: Celebration of National Science Day (NSD) 2020-21 on 28th February 2021 - reg.

National Science Day (NSD) is celebrated on 28th of February every year in order to commemorate the invention of the Raman Effect in India by the Indian Physicist, Sir Chandrasekhara Venkata Raman on the same day in the year 1928. The Department of Science and Technology supports the celebration of National Science Day by organising lectures, demonstrations, exhibitions, quiz programmes, and so on for students and also the masses in the country.

Objectives of celebration of National Science Day:

1. To make youth aware of the significance of the contributions made by Dr. C. V. Raman towards Science and Technology and inspire them to follow his path
2. To spread a message about the significance of scientific applications in the daily life of the people,
3. To display all the activities, efforts and achievements in the field of science for welfare of human being,
4. To discuss all the issues and implement new technologies for the development of the science,
5. To give an opportunity to the scientific minded citizens in the country,
6. To encourage the people as well as popularize the Science and Technology.

Theme of NSD 2020-21:

'Future of STI (Science Technology and Innovation): Impacts of Education, Skills and Work'
